## Bingo Card Activity Details:

**Backcountry Ski:** Ski off groomed trails. Could even be in your backyard!

**Build a Ski Jump:** Build a jump and have fun skiing off it. Make sure you have a safe outrun.

**Classic Ski:** Try classic skiing!

**Gliding Contest:** You can play against yourself or with others. Double pole to a set point at the top of a hill and then glide down and see how far you can go. Mark where you stop and then do it again to see if you can go further. You can also compare your stopping point with others.

**Night Ski:** Ski after dark with light from the moon or a headlamp.

**Obstacle Course:** Build an obstacle course (bicycle bumps, jumps, slalom etc.) and then have fun skiing it.

**Participate in a NENSA/BKL/Youth Ski Event:** Enter a local BKL race, games day, tour, or ski festival in your community! Check the NENSA calendar for some ideas: [www.nensa.net/events](http://www.nensa.net/events) and/or reach out to your local youth ski club here: [www.nensa.net/bill-koch-league-club-directory/](http://www.nensa.net/bill-koch-league-club-directory/).

**Play a Game on Skis:** Can be any game with anyone you choose to play with. Games at your BKL practice count!

**Research a Historical Ski Fact:** Research a fact and tell us what you learned!

**Skate Ski:** Try skate skiing!

**Ski Backwards:** Find a relatively flat loop and go around it skiing backwards (skating will be easier than classic). For an added challenge, try skiing backwards down a hill. Make sure you keep looking over your shoulder to avoid other people!

**Ski all the Trails:** Over the course of the winter, ski all the trails at your local ski place (only trails that are open and skiable).

**Ski in NH:** Ski somewhere in New Hampshire. Get ideas here: [xcski.org/find-a-ski-area](http://xcski.org/find-a-ski-area)

**Ski with Just Legs:** Ski at least 10 minutes with just your legs.

**Try Another Winter Sport:** This could be ice skating, downhill skiing, snowshoeing, etc. Get creative and have fun!

**Spin on Your Skis:** Try jumping in a circle with your skis parallel. Can you jump 180 degrees? What about a full 360 degree rotation?

**Watch a Ski Event:** This could be in-person at a local ski event or race, or you could look up some World Cup footage on the internet and check out the international racing scene!
